

JUNGRUN KIM

International Broadcast Specialist · Sports Marketing & PR · Global Business

Seoul, Korea · jokim90@gmail.com · jokim90.github.io · github.com/jokim90

International sports media specialist with 11 years building Korea's racing content into a global export business — now reaching 29 countries on five continents with KRW 150 billion+ (approx. USD 100M+) in annual revenue. Joined Korea Racing Authority in 2015 as the dedicated content lead (international announcer) for the newly launched export business and turned Korean racing from a domestic product into a recognized international sports brand. The only Korean English-language racing broadcaster in the world, with 1,000+ live race broadcasts; since 2024 also handles contract work for the international business, and in 2026 led the staging of the Korea Cup and served as Chief Director of its international press conference. A capable PR administrator inside a government-affiliated public corporation, with working knowledge of Korean public-sector procedure.

EXPERIENCE

International Broadcast Announcer & Producer · International Business Division | Korea Racing Authority (KRA / KRBC)

· Seoul · 2015 – Present

International Business & Contracts

- **Joined in 2015 through KRA's competitive public-sector recruitment as the dedicated content lead** for the international export business launched in 2014; helped grow it from a one-year-old venture to **29 markets on five continents and KRW 150 billion+ in annual revenue** over 11 years.
- **Since 2024, hands-on contract work for the international business** — negotiating contract terms, distribution scope and delivery obligations directly with overseas broadcast and distribution partners.
- Content and distribution partnerships with **France Galop, World Horse Racing and Racing and Sports**, from coordination through delivery, plus ongoing relationships with international racing and sports media.

Global Broadcast Production & Live Presenting

- **The only Korean English-language racing broadcaster in the world** — 1,000+ live race broadcasts, interviews and reporting in a real-time, high-exposure environment.
- English-language broadcast content for the flagship **Korea Cup** and a **weekly international racing program**, produced for overseas broadcasters — planned, scripted, directed, edited, QA-checked and scheduled end to end.
- On-site broadcast production at overseas race days including the Hong Kong International Races; virtual international studio and roundtables with overseas journalists for Korea Cup and Korea Sprint.
- **Co-produced programming with Arirang TV (2026)**, Korea's public international broadcaster, taking Korean racing to an English-language TV audience.

Event Marketing & Direction

- **Chief Director, 2026 Korea Cup Press Conference** — overall direction and production of KRA's first-ever Korea Cup press conference for domestic and international media (JW Marriott Seoul).
- **Led the successful staging of the 2026 Korea Cup**, Korea's first International G2 race, watched by 27,000 fans at LetsRun Park Seoul.
- Developed the **Korea Cup VIP invitation strategy** targeting equestrian-linked royalty and global racing figures through embassy channels in the UK, France, Japan and Hong Kong; planned and executed international promotion across global racing media; briefed and steered creative and event agencies.

PR & Public Affairs

- **News exposure and race broadcast collaborations with YTN, KBS N and other domestic broadcasters**, alongside the Arirang TV co-production, widening coverage and reach.
- Planning and running press conferences and media events; drafting press releases and official announcements in Korean and English.

- **Working knowledge of Korean government and public-institution procedure** — approvals, procurement rules, reporting lines and ministry-level protocol — including run-of-show, MC scripts, interpretation and logistics for official ceremonies and visiting delegations.

Subcontractor Management & Editorial

- Manage local broadcast production companies end to end — **Scope of Work, vendor selection, negotiation, budgets, contract administration, delivery QA and performance evaluation** across multiple simultaneous productions (Arirang TV media production procurement, annual vendor contracts).
- **Editorial ownership of everything published in Korean and English**, from first draft to publication approval — scripts, press releases, features, translation review, language QA, terminology, fact-checking and a Korean-English subtitle workflow — keeping one brand voice across 29 markets.
- Built the workflow system and documentation standards for recurring public-sector production work so operational know-how stays with the organization.
